EXPERIENCE

Tata Elxsi Limited, Pune — *Engineer(TBU)*

August 2021 - PRESENT

I started my first corporate career in Tata Elxsi Limited as a fresher.

EDUCATION

Dr. Ambedker Institute of technology for Handicapped, Kanpur — *B. Tech (Electronics)*

August 2017 - August 2021

Completed my B. Tech with **81.2%** marks.

Jawahar Navodaya Vidyalaya, Amethi — *Intermediate*

April 2016 - May 2017

Completed my Intermediate with **87.6%** marks.

Jawahar Navodaya Vidyalaya, Amethi — *High School*

April 2014 - May 2015

Completed my High School with **8.4 CGPA**.

PROJECTS

Project Name — *IOT based home appliance control*

This was my final year B. Tech project.

This is an IOT Based Home Appliance Control project. In this project, we can control appliances from remote locations via the internet. In India, many people forget to turn off unnecessary electronic appliances when they leave their homes due to which electricity becomes waste. For example when you leave home for the office in the morning, then you may forget to turn off multiple switches daily due to lack of time.

SKILLS

C and C++(In Progress)

Python

Web Development(HTML,
CSS, Javascript, flask, Node JS
(In Progress))
